**UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA**

SHOSHA KELLMAN, on behalf of herself and
all others similarly situated,

Plaintiff,

v.

WHOLE FOODS MARKET, INC., WHOLE
FOODS MARKET CALIFORNIA, INC.,
WHOLE FOODS MARKET SERVICES, INC.
and WHOLE FOODS MARKET
DISTRIBUTION, INC.

Defendants.

Case No. 17-cv-06584-LB

**THIRD AMENDED CLASS
ACTION COMPLAINT**

DEMAND FOR JURY TRIAL

Plaintiff Shosha Kellman, by her attorneys, brings this class action against Whole Foods Market, Inc. (“WFMI”), Whole Foods Market California, Inc. (“WFM California”), Whole Foods Market Services, Inc. (“WFM Services”), and Whole Foods Market Distribution, Inc. (“WFM Distribution”) (collectively, “Defendants,” “WF” or “Whole Foods”), on her own behalf and on behalf of all others similarly situated, and alleges as follows:

I. INTRODUCTION

1. Whether an annoying patch of dry skin or an oozing rash that affects one’s social

1 life, as much as 70% of the U.S. population is allergic to at least one personal care product
2 ingredient. Most of these skin allergies are of unknown cause.

3 2. It is extremely difficult for people to identify what ingredient they are allergic to.
4 Allergic reactions are attenuated in both space and time. Some allergic reactions will not manifest
5 until a week after exposure to the allergen. Even worse – some allergic reactions will not manifest
6 on the body part exposed to the allergen. Instead, the immune system will sometimes “remember”
7 the first exposure and the allergic reaction will develop on the body part that was *first* exposed to
8 the allergen.

9 3. Thus, consumers increasingly seek hypoallergenic products. Those who do not
10 suffer from skin allergies seek hypoallergenic products to avoid developing a skin allergy. Those
11 who do suffer from a skin allergy seek hypoallergenic products to avoid the inflammatory cascade
12 caused by an unidentified skin allergen.

13 4. Since its founding, WF bases its brand as being a credible and trustworthy retailer,
14 offering information and advice to consumers desiring safe products or seeking to avoid certain
15 food ingredients or allergens.

16 5. In an effort to lure more customers, WF expanded to become not only a retailer and
17 educator, but also a manufacturer of household and body care products. These private labels
18 include 365 Everyday Value and WF product lines.

19 6. Seeking to capture the growing hypoallergenic market, WF prominently labels
20 many of its products as “hypoallergenic.” *See* Product Labels attached as Exhibit 1.

21 7. However, despite its marketing scheme, WF’s products are chock-full of known
22 skin sensitizers (allergens), agents that cause serious skin damage, chemicals that cause serious
23 eye damage lasting longer than 21 days, skin irritants, and eye irritants. Even more, WF’s products
24 also contain known carcinogens, mutagens, reproductive toxins, and other chemicals extremely
25 hazardous to human health. *See* Exhibit 1 and *infra* at ¶¶ 175-203.

26 8. This is a class action on behalf of a national class of consumers who purchased
27 WF’s body care products that were falsely and misleadingly marketed as “hypoallergenic.” These

1 products in fact contain a shocking array of compounds known to cause allergic responses. These
2 products also contain a plethora of other compounds known to cause severe skin corrosion, serious
3 eye damage, or are otherwise toxic or hazardous in the case of skin contact. These products are
4 also stuffed with other chemicals that have not been analyzed for their skin sensitization potential.
5 Finally, these products also contain ingredients known to cause cancer, genetic mutations, birth
6 defects, or are otherwise toxic or hazardous to human health or the environment.

7 9. Many of the ingredients are permitted body care products. Yet WF did not simply
8 claim that its household products are “legal.” WF falsely and misleadingly claimed that the
9 ingredients in its products are “hypoallergenic” when they are not.

10 10. By deceiving consumers about the nature, quality, and/or ingredients of its
11 products, WF is able to command a premium price, increasing consumers’ willingness to pay and
12 take away market share from competing products, thereby increasing its own sales and profits.

13 11. Consumers lack the ability to test or independently ascertain the toxicity of a
14 chemical, especially at the point of sale. Reasonable consumers must and do rely on the chemicals
15 company to honestly report the nature of the product’s ingredients.

16 12. WF further encouraged consumers to rely on its representations, marketing itself as
17 an honest company that provides transparent and truthful information about its products’
18 ingredients.

19 13. WF intended for consumers to rely on its representations, and hundreds of
20 thousands of reasonable consumers did in fact so rely.

21 14. As a result of its false and misleading labeling, WF was able to sell these products
22 to hundreds of thousands of consumers throughout the United States and to profit handsomely
23 from these transactions.

24 15. WF’s false and misleading representations and omissions violate state and federal
25 law, both civil and criminal, detailed more fully below, including California’s Unfair Competition
26 Law, California’s Consumer Legal Remedies Act, and common law.

27 16. Plaintiff brings this action to stop WF’s deceptive and misleading practices.

II. PARTIES

A. Plaintiff Shosha Kellman

17. Plaintiff Shosha Kellman is an individual consumer who, at all times material hereto, was a citizen of the State of California and resident of Alameda. For approximately twenty-four months, from early 2014 through early 2016, Plaintiff Kellman regularly purchased WF's 365 Gentle Skin Cleanser from the Whole Foods Market located at 3000 Telegraph Ave, Berkeley CA 94705 and from the Whole Foods Market located at 230 Bay Place, Oakland, CA 94612. Ms. Kellman consistently used a credit card for her purchases. Plaintiff Kellman estimates that she purchased the product every four to six weeks. In addition, Plaintiff Kellman purchased other WF products. Plaintiff Kellman sometimes purchased WF's 365 moisturizing lotion during the same 24-month period of time.

18. In deciding to make these purchases, Plaintiff Kellman saw, relied upon, and reasonably believed the label representation that the products were "hypoallergenic." These representations were a significant reason for her purchases.

19. Plaintiff Kellman and her family members have all suffered skin irritation, eye irritation, dermatitis, and/or an allergic skin reaction in the past.

20. In the case of common skin irritation or dermatitis, Plaintiff Kellman, like similarly situated consumers, is unsure whether what seemed like skin or eye irritation or dermatitis was in fact an allergic response to an ingredient in a personal care product.

21. Like similarly situated consumers, Plaintiff Kellman does not know the identity of every ingredient she and her family are allergic to. Moreover, like similarly situated consumers, Plaintiff Kellman does not know which ingredients she or her family may develop an allergy to.

22. Had Plaintiff Kellman known at the time that these products were not hypoallergenic as promised, she would not have purchased these products.

23. Had Plaintiff Kellman known at the time that these products contained irritating, toxic, hazardous, or otherwise harmful chemicals, she would not have purchased these products.

24. Plaintiff Kellman purchased, purchased more of, or paid more for, these products

than she would have had she known that the products contained skin sensitizers, irritants, toxins, carcinogens, or otherwise harmful chemicals.

25. If WF's products were reformulated such that its representations were truthful, Plaintiff Kellman would consider purchasing WF's products in the future.

26. The products that Plaintiff Kellman purchased are substantially similar to WF's other products alleged to be falsely labeled.

B. Defendant Whole Foods Market, Inc.

27. Defendant Whole Foods Market, Inc. ("WFMI") is a corporation with its principal place of business located at 550 Bowie Street, Austin, Texas. WFMI manufactures and/or causes the manufacture of personal care and baby care products. WFMI labels these products under its own name, and markets and distributes the products nationwide through its corporate parent's online website (amazon.com) and through its retail stores located throughout the United States.

28. As WFMI stated in federal court filings in 2008, it "currently operates more than 260 stores in the U.S., in 37 states and in the District of Columbia, and has more than 50,000 employees." *Whole Foods Market, Inc. v. Federal Trade Commission* (D.D.C., filed Dec. 8, 2008), Case No. 1:08-cv-02121, Complaint for Declaratory and Injunctive Relief, ECF 1 at 4.

29. Today, ten years later, that number has grown to 436 U.S. stores, including 85 stores in the State of California. 2016 Whole Foods Annual Report at 14.¹

30. Since its acquisition by Amazon.com, WFMI has also caused the sale of its private label products nationwide, including to consumers in California, through the website of its parent corporation, www.amazon.com. *See* Amazon.com sales pages at Exhibit 1.

C. Defendant Whole Foods Market California, Inc.

31. Whole Foods Market California, Inc. ("WFM California") is a wholly-owned subsidiary of WFMI and is incorporated in California.

32. WFM California operates the Whole Foods retail stores in Northern California.

¹ *See* 2016 Annual Report, http://s21.q4cdn.com/118642233/files/doc_financials/2016/Annual/2016-WFM-Annual-Report.pdf.

33. WFM California is 100% owned and controlled by WFMI.

D. Defendant Whole Foods Market Services, Inc.

34. Whole Foods Market Services, Inc. (“WFM Services”) controls decisions relating to the nation-wide design, development, advertising, and marketing of Whole Foods private label lines of products. *See* Exhibit 2, Decl. of WFM Services Private Label – Customer Service and Sales Support Team Leader, Rebecca Stuch, *Frame v. Whole Foods Market, Inc.*, Case No. 1:06-cv-07058-DAB (“*Frame*”), ECF 6 at ¶ 4 (WFM Services Private Label – Customer Service and Sales Support Team Leader declaring that “All national marketing and advertising for the 365 EVERYDAY VALUE and 365 ORGANIC EVERYDAY VALUE line of products is directed from Whole Foods Market Services, Inc.’s offices in Austin, Texas.”); Exhibit 3, Excerpts from WFMI’s Memorandum of Law in Support of Motion to Transfer, *Frame* ECF 8 at p. 2, (“Decisions relating to the design, development, advertising, and marketing of these private label lines of products are controlled by employees of Whole Foods Market Services, Inc.”).

35. WFM Services designs, develops, advertises, and markets Whole Foods private label products to be sold in California.

36. WFM Services accomplishes the national design, development, advertising, and marketing of its private label lines of products through, inter alia, its assets and employees based in the State of California.

37. WFM Services owns and operates Whole Foods’ website, which is used to market and consummate online sales of its products to consumers in California and throughout the nation. *See, e.g.*, Whole Foods Privacy Notice, <https://www.wholefoodsmarket.com/privacy-policy> (last visited Feb. 15, 2018), and Whole Foods Terms & Conditions, <https://www.wholefoodsmarket.com/terms-use> (last visited Feb. 15, 2018).

38. WFM Services has continuous and systematic general business contacts that approximate physical presence in the forum state.

39. Among other services, WFM Services regularly provides administrative services to the various Whole Foods Market family of business entities.

1 40. Among other services, WFM Services performs accounting services, legal services,
2 and financial services for the Whole Foods Market family of business entities.

3 41. WFM Services does not provide services to companies that are not within the
4 Whole Foods Market family of business entities.

5 42. WFM Services Inc. is 100% owned and controlled by WFMI.

6 **E. Defendant Whole Foods Market Distribution, Inc.**

7 43. Whole Foods Market Distribution, Inc. (“WFM Distribution”) is a wholly-owned
8 subsidiary of WFMI and is incorporated in Delaware.

9 44. WFM Distribution distributes or causes the distribution of all of WF’s private label
10 products throughout the United States, including and specifically to retail stores in the State of
11 California. *See* Exhibit 4, Excerpts from Agreement for the Distribution of Products between
12 WFM Distribution and United Natural Foods, Inc.

13 45. WFM Distribution is 100% owned and controlled by WFMI.

14 **III. JURISDICTION AND VENUE**

15 46. This Court has personal jurisdiction over the parties in this case.

16 **A. Plaintiff**

17 47. Plaintiff Kellman is a citizen of California.

18 **B. Defendants**

19 48. This Court has personal jurisdiction over Defendants because they have sufficient
20 minimum contacts in California or otherwise intentionally avail themselves of the laws of this
21 State through the marketing of the products at issue in California to consumers in California and
22 through direct sales of the products at issue in California to consumers in California, so as to render
23 the exercise of jurisdiction by this Court consistent with traditional notions of fair play and
24 substantial justice.

C. **Additional Allegations Of Personal Jurisdiction Over Defendants**

1. **WFMI Has Operated Whole Foods Stores Since 1980, and Has Continuously Operated Stores in California for at Least 29 Years**

49. WFM Services, Inc. and WFM California, Inc. are alter egos of WFMI and are being used to perpetuate a fraud.

50. In binding judicial admissions, WFMI has admitted that WFMI operates Whole Foods stores throughout the State of California. *See* Exhibit 5, excerpts from WFMI Answer, *Americans with Disabilities Advocates et. al v. Whole Foods Market, Inc.*, 3:03-cv-02977 (N.D. Cal., filed on June 26, 2003), ECF 5 at ¶¶ 1, 5, 11.

51. WFMI has continuously operated Whole Foods stores in California since at least 1989. *See* Exhibit 6, excerpts from WFMI Findings of Fact and Conclusions of Law in Opposition to Motion for a Preliminary Injunction, *FTC v. Whole Foods Market, Inc. and Wild Oats Markets, Inc.*, 1:07-cv-01021 (D.D.C., filed June 6, 2007) (hereinafter “FTC”), ECF 158 at ¶ 527.²

52. WFMI has also held itself out to courts as “doing business as” its California subsidiaries. *See, e.g.*, Exhibit 5 at ¶ 1 (“Answering Paragraph 1 of the Complaint, Defendant Whole Foods Market, Inc. doing business as Whole Foods Market, 621 East Washington, Petaluma, CA (‘Defendant’) . . .”)

² In WFMI’s filings in federal court in *FTC v. Whole Foods Market, Inc. and Wild Oats Markets, Inc.*, 1:07-cv-01021 (D.D.C., filed June 6, 2007), WFMI distinguished between it and its subsidiaries, defining the term “Whole Foods” as either only WFMI or as both WFMI and its subsidiaries, as appropriate. *See, e.g.*, Exhibit 7, Excerpts from WFMI [Proposed] Protective Order Governing Discovery Material, FTC ECF 12-1 at p. 1 (defining “Whole Foods” as WFMI and its subsidiaries).

In the FTC docket entries filed by WFMI and cited by Plaintiff, by the term “Whole Foods,” WFMI specified that it means “Whole Foods Market, Inc.” Exhibit 6, WFMI Findings of Fact and Conclusions of Law in Opposition to Motion for a Preliminary Injunction, FTC ECF 158 at p. 1 (“Whole Foods Market Inc. (‘Whole Foods’) . . .”); Exhibit 11, WFMI Memorandum of Points and Authorities in Opposition to Motion for a Preliminary Injunction, FTC ECF 141 at p. 1 (same); Exhibit 9, WFMI Answer, FTC ECF 24 at p. 1 (“Defendant Whole Foods Market, Inc. (‘Whole Foods’) . . .”); Exhibit 12, Lang Dec. at ¶ 3 (“I am the General Counsel of defendant Whole Foods Markets, Inc. (‘Whole Foods’).”).

In the FTC docket entries filed by the FTC and cited by Plaintiff, by the term “Whole Foods,” the FTC specified that it means “Whole Foods Market, Inc.” Exhibit 8, FTC Complaint, FTC ECF 10 at p. 1; Exhibit 14, FTC’s Proposed Findings of Fact, FTC ECF 161 at p. 3 (“Whole Foods Market, Inc. (‘Whole Foods’) . . .”).

53. When WFMI sought to purchase Wild Oats Markets, Inc. stores (including Wild Oats stores located in California), the Federal Trade Commission studied approximately 2.5 million pages of documents and 2300 MB of data WFMI produced regarding their stores, products, pricing, and business plans. Exhibit 6, WFMI Joint Findings of Fact and Conclusions of Law in Opposition to Motion for a Preliminary Injunction, FTC ECF 158 at ¶¶ 10, 11.

54. The FTC then filed a complaint to halt the transaction, contending that WFMI was a supermarket and a competitor of Wild Oats. Exhibit 8, FTC Complaint, FTC ECF 10.

55. In response to the FTC, WFMI did not claim that it did not operate grocery stores, and it did not claim that it did not compete with Wild Oats.

56. Instead, WFMI admitted that it was a competitor of Wild Oats. Exhibit 6, FTC ECF 158 at ¶ 17 (“All supermarkets, including Whole Foods and Wild Oats, possess these similar attributes, and this is what makes them relevant competitors for the same base of supermarket consumers.”); *id.* at ¶ 70 (WFMI “views all supermarket and food retailers as its competition ‘Every grocery is a competitor of [Whole Foods], so any Safeway, Kroger, Albertsons, local regional player, Wegman’s, Molly Stone’s, anyone is a competitor.’”).

57. WFMI also admitted that, though it is a Texas corporation, since 1980, it operates hundreds of its “Whole Foods” grocery stores throughout the United States. *See, e.g.*, Exhibit 9, WFMI Answer, FTC ECF 24 at ¶ 2 (admitting allegations in Exhibit 8, FTC ECF 10, FTC Amended Complaint at ¶ 2, that it is a Texas corporation, and admitting that it “operates approximately 190 stores in more than 30 states and the District of Columbia”); Exhibit 6, FTC ECF 158 at ¶ 1 (“Whole Foods first opened its doors in 1980. At that time, all of Whole Foods’ operations consisted of a single 10,000 square-foot health foods store in Austin, Texas. Its current Austin store is approximately 80,000 square feet and, like Whole Foods’ 193 other stores in the United States, is a full-service supermarket with a broad array of conventional, natural, organic, gourmet prepared and specialty product offerings.”).

58. WFMI acquired several California entities so that it could gain a competitive advantage in California. Exhibit 10, Excerpts from Expert Report of Kevin M. Murphy, FTC

ECF 173-1 at ¶¶ 36-37. “In 1990 it acquired Mr. Walter Robb's store in Mill Valley, CA In 1993, it acquired Mrs. Gooch's in Los Angeles, CA and in 1995 it acquired Bread of Life in the San Francisco, CA area, In 1997 it acquired Granary Market in Pacific Grove, CA, ... in 2000 it acquired Food 4 Thought Natural Food Market and Deli in Sonoma County, CA.” Exhibit 10, FTC ECF 173-1 at ¶ 25. And in 2007, it attempted to purchase Wild Oats grocery stores, including Wild Oats stores in California. Exhibit 9, FTC ECF 24 at ¶ 14; Exhibit 11, Excerpts from WFMI Memorandum of Points and Authorities in Opposition to Motion for a Preliminary Injunction, FTC ECF 141 at p. 29.

59. WFMI has admitted that it purchases stores to gain a competitive advantage in that geographic region. For example, during the investigational hearing of WFMI's bid to purchase Wild Oats' grocery stores (including its California grocery stores), WFMI's Chief Executive Officer, John Mackey, admitted “One of the motivations is to eliminate a competitor. I will not deny that. That is one of the reasons why we are doing this deal. That is one of the reasons we are willing to pay \$18.50 for a company that has lost \$60 million in the last six years. If we can't eliminate those stores, then Wild Oats, frankly, isn't worth buying.” Exhibit 10, FTC ECF 173-1 at ¶ 39, quoting Investigational Hearing of Mackey, p. 75.

2. WFMI Controls Key Aspects of its Stores' Operations, Including its Marketing and Sale of Private Label Products, Including the Products at Issue in this Complaint, Such That it is Considers Itself to be the True Operator

60. WFMI controls the key aspects of its stores' operations, including its national marketing, its ambience, and its sale of private label products that differentiate it from its competitors, such that WFMI considers itself to be (and in fact, is) the true operator of its stores.

61. According to WFMI's then-General Counsel, “[c]ompetitive decisions at Whole Foods are made at the national level by a group of the most senior executives of the company known as the ‘Executive Team’ or ‘Eteam.’ The members of the Eteam are the Chief Executive Officer, the Chief Financial Officer, the Co- Presidents, and two Executive Vice Presidents. The Eteam makes decisions about Whole Foods business and policy at a national level.” Exhibit 12, Declaration of WFMI General Counsel Roberta L. Lang, FTC ECF 12-3 at ¶ 6.

62. WFMI systematically selects the geographical locations for all its stores, including the stores that sold the private label products at issue in this Complaint. Exhibit 6, FTC ECF 158 at ¶ 91 (citing sealed records that show WFMI’s approach to site selection decisions, and specifying records showing WFMI’s approach to site selection decisions in California).

63. However, some competitive decisions and some pricing decisions are made by WFMI. *See* Exhibit 6, FTC ECF 158 at ¶¶ 3, 270, 611 (WFMI’s co-presidents, “who have responsibility for the day-to-day operations of the company ... routinely visit other supermarkets in order to assess that competition. This is apparent in every-day, ground-level documents”).

64. WFMI makes competitive strategy decisions regarding its private label line, including pricing decisions. Exhibit 6, FTC ECF 158 at ¶¶ 36, 82-85, 88, 90, 271, 272. *See also* Exhibit 11, FTC ECF 141 at pp. 32-33; Exhibit 13, excerpts from WFMI Reply of Memorandum of Points and Authorities in Opposition to Motion for a Preliminary Injunction, FTC ECF 169-1 at p. 22.

65. Moreover, WFMI directs its regional presidents’ pricing decisions. Exhibit 11, ECF 141 at pp. 30-31 (WFMI directs its regional presidents as to pricing decisions). *Accord* Exhibit 6, FTC ECF 158 at ¶¶ 607, 610, 729.

66. WFMI also requires its stores to post certain advertisements. *See, e.g.*, Exhibit 6, FTC ECF 158 at ¶ 273.

67. WFMI ultimately decides or instructs its subsidiaries as to which stores to open, where to open them, and pricing strategy for its products, including which stores to open in California, and what prices to charge for its private label products labeled as “hypoallergenic.” *See* Exhibit 14, excerpts from FTC’s Proposed Findings of Fact, FTC ECF 161 at ¶¶ 582-585. *See also* Exhibit 11, FTC ECF 141 at pp. 30-31 (citing redacted record) (explaining that because WFMI “recognizes that other supermarkets are its competitors, it constantly checks its prices against their prices” and has “directed its regional personnel to price-check” against specific stores).

68. For example, during its investigation, the FTC determined that WFMI’s national

strategy was to open stores where its competing grocery stores were located, monitoring and matching its competitors' prices. *See* Exhibit 14, FTC ECF 161 *passim*, *see, e.g., id.* at ¶¶ 347, 352, 559, 582-585 (citing sealed record). *See also* Exhibit 13, ECF 169-1 at pp. 21-22 (citing sealed record).

69. As WFMI's Chief Financial Officer and Director admitted, the strategy of WFMI's Chief Executive Officer was to "go head to head" against its grocery store competitors, "open bigger better stores and compete aggressively with them on price Their downfall means serious rewards for our shareholders ... their store closings are benefitting our own store sales etc." *See* Exhibit 14, FTC ECF 161 at ¶ 349.

3. WFMI Develops, Sets the Price of, and Sells the Private Label Products at Issue in This Complaint

70. As WFMI explained in federal filings, WFMI began to develop its own private label products to compete with a specific competitor. However, "over time its goals have expanded. Now, [WFMI]³ uses its private label products to compete with other supermarkets as well" Exhibit 11, FTC ECF 141 at pp. 32-33. *See also id.* at p. 33 ("The private label program is intended to encourage cross-shopping consumers to purchase more of their everyday items at Whole [F]oods rather than another supermarket."); *id.* at p. 28 ("Whole Foods' future success depends on continuing to attract supermarket cross-shoppers."); Exhibit 6, FTC ECF 158 at ¶ 36 ("As a result of increased competition and decreased differentiation from other supermarkets, ... [WFMI]⁴ has expanded product offerings to include ... everyday value private label items").

71. WFMI also created its private label program "to help promote Whole Foods' value image" Exhibit 11, FTC ECF 141 at p. 33.

72. That is, WFMI's goal is not just to sell more Whole Foods private label products, but also to get the shopper to buy *other* products at Whole Foods stores.

³ By the term "Whole Foods," WFMI specified that it means "Whole Foods Market, Inc." Exhibit 11, FTC ECF 141 at p. 1 ("Whole Foods Market Inc. ('Whole Foods')").

⁴ By the term "Whole Foods," WFMI specified that it means "Whole Foods Market, Inc." Exhibit 6, FTC ECF 158 at p. 1 ("Whole Foods Market Inc. ('Whole Foods')").

73. WFMI decides which private label products to develop and what prices to charge.

74. As WFMI explained in federal findings, WFMI “identifies where it has a product gap compared to competitors, and it develops competing products. Then, to ensure that its products are competitive, it carefully studies the prices being charged by competitors and sets prices to meet or beat competing brands.” Exhibit 11, FTC ECF 141 at pp. 32-33. *See also* Exhibit 13, FTC ECF 169-1 at 22; Exhibit 6, FTC ECF 158 at ¶¶ 82-85, 272.

75. WFMI intentionally, systematically, and continuously uses its private label product line to drive customers to its retail locations and to help promote WFMI’s “value image.” Exhibit 6, FTC ECF 158 at ¶ 88. *See also id.* at ¶¶ 82-85, 90, 272.

76. Because WFMI operates its Whole Foods stores in California, WFMI is also the seller of its private label products, including the private label products at issue in this Complaint.

4. **Marketing Control**

77. WFMI, WFM Services, WFM California, and WFM Distribution all use common marketing, including a common use of Whole Foods trademarks and logos. WFMI uses this common, nation-wide marketing scheme to give consumers the belief that its stores have a national presence and abide by a nation-wide set of standards, set by WFMI.

78. WFMI also uses this nation-wide marketing scheme to give consumers the belief that all Whole Foods entities are, in practicality, one organization. WFMI uses a nation-wide marketing scheme to convey to consumers that the Whole Foods retailer that sells natural and organic products is also producing the private label Whole Foods personal care and household cleaning products.

79. Thus, Whole Foods retailers are the exclusive retailer for Whole Foods personal care and household cleaning products.

80. WFM Services is the marketing arm of WFMI’s products, and WFMI’s subsidiaries are the exclusive retailers of WFM Services’ products. WFM California is the exclusive retailer of WFMI’s private label products in certain California regions. WFM Distribution is the exclusive distributor of WFMI’s private label products in certain California regions. *See* Exhibit 4.

81. WFMI requires that WFM Services produces only Whole Foods private label products. WFMI bars WFM Services from producing products for any company other than Whole Foods.

82. WFMI dictates the marketing language permitted in WFM California's stores and on WFMI Services' products.

83. WFMI also dictates the ingredients permitted in WFMI Services' products and in the products sold at WFM California's stores.

5. Indemnification

84. WFMI is willing, when it so desires, to accept responsibility for the actions of its subsidiaries. For example, WFMI signs blanket indemnification agreements with WFMI Services, Inc. Exhibit 15, WFMI Indemnification Agreement for WFM Services. WFMI took this action to ensure that WFMI Services could operate and to ensure that the indemnitee would serve as a director, officer, or agent of WFMI Services. *Id.*

6. Shared offices

85. WFMI causes its subsidiaries, including WFM Services and WFM California to share business offices, mailing addresses, and principal executive offices with WFMI.⁵

7. Common Control

86. According to WFMI's bylaws, the directors, officers, agents, functionaries, and certain employees "of any of [WFMI's] direct or indirect wholly-owned subsidiaries, shall be deemed to be serving in such capacity at the request of the Corporation [WFMI]." *See* Exhibit 16, WFMI By-Laws at § 9.1.

87. WFM Services' directors, officers, agents, and certain employees serve at the control of its parent corporation, WFMI. *See* Exhibit 16, WFMI By-Laws at § 9.1.

88. WFM Services' directors and officers are controlled by WFMI. *See* Exhibit 16, WFMI By-Laws at § 9.1.

⁵ Whole Foods FORM POS AM 8/29/2017 at pp. 2, 11, and Schedule A. *See* <http://pdf.secdatabase.com/485/0001193125-17-271028.pdf>.

89. Similarly, WFM California's and WFMI Distribution's directors, officers, agents, and certain employees serve at the control of its parent corporation, WFMI, and are controlled by WFMI. *See* Exhibit 16, WFMI By-Laws at § 9.1.

90. WFMI's subsidiaries have the same officers and directors as WFMI. For example, John P. Mackey is the Chief Executive Officer of both WFM Services and WFMI.⁶

91. As the Chief Executive Officer of WFM Services, Mr. Mackey is its president, holding general and active management of the business of the corporation. Whole Foods Market Services Inc. *See* Exhibit 17, WFM Services By-Laws at Art. 5, § 6.

92. From 2011 until her resignation in 2017, Glenda Flanagan served as the Executive Vice President and Chief Financial Officer of both WFM Services and WFMI. *See* WF letter to Securities and Exchange Commission, September 2016.⁷

93. Glenda Flanagan was also the Sole Director of WFM Services.⁸

8. Employees

94. WFMI considers and treats WFM Services and WFM California employees as its own employees, classifying them as WFMI "Team Members."⁹

95. Through its "General Information Guide" or "GIG," WFMI dictates the terms and conditions of its subsidiaries' relationship with its employees, including pay, work conditions,

⁶ Whole Foods Market, Inc., Form S-4, Sept. 9, 2016, pp. II-11; II-26 <https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zs-4.htm>. *See*, https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zex-3_40.htm.

⁷ *See* <https://www.sec.gov/Archives/edgar/data/865436/000110465916145904/filename1.htm>. *See* also, Form S-4, Sept. 9, 2016, pp. II-11; II-26 <https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zs-4.htm>; <http://www.barchart.com/plmodules/?module=secFilings&popup=1&filingid=7971654&type=CONVPDF&override=1&symbol=WFM>.

⁸ *See* Whole Foods Market, Inc., Form S-4, Sept. 9, 2016, p. II-26, <https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zs-4.htm>.

⁹ *See* Whole Foods Market 2007 Team Member Stock Purchase Plan, <https://www.sec.gov/Archives/edgar/data/865436/000086543613000134/wfm10k2013ex105.htm>

training, work requirements, non-competition provisions, confidentiality requirements, and various employment policies such as dress code, recordings in the workplace, smoking policies, and policies for communicating in online forums such as internet chat rooms and message boards.¹⁰

96. WFMI dictates which policy violations may result in termination.¹¹

97. WFMI allows its subsidiaries' employees to take advantage of WFMI's employee stock purchase plan.¹²

98. WFMI caps subsidiaries' employees' salaries to 19 times the average annual wage of all WFMI's Team Members.¹³

9. Corporate Formalities

99. WFMI has ignored the corporate formalities of its subsidiaries. For example, the subsidiaries' election of officers and the determination of their pay has been decided and dictated by WFMI on a WFMI-wide basis by WFMI, not by the individual directors of WFM Services, as required by WFM Services' Bylaws.¹⁴

¹⁰ See WF Code of Business Conduct 2017, [http://s21.q4cdn.com/118642233/files/doc_downloads/governance_documents/2017/Whole-Foods-Market-Code-of-Business-Conduct\[1\].pdf](http://s21.q4cdn.com/118642233/files/doc_downloads/governance_documents/2017/Whole-Foods-Market-Code-of-Business-Conduct[1].pdf); WF and Local 919, recordings in workplace, <http://hr.cch.com/ELD/WholeFoods122415.pdf>; WF Executive Retention Plan, <https://www.sec.gov/Archives/edgar/data/865436/000086543612000017/wfmexecutiveretentionplane.htm>.

¹⁴ WFM California Bylaws at 13, 15, https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zex-3_26.htm, or by the directors of WFM California, as required by WFM California's Bylaws at 5-

10. WFMI Uses WFM Services, WFM California, and WFM Distribution as its Alter Egos and as its Agents to Sell the Falsely Labeled Products in California

100. WFM Services, WFM California, and WFM Distribution, are alter egos of WFMI and are being used to perpetuate a fraud.

101. WFMI repeatedly causes WFM Services and WFM California to hold themselves out as “d/b/a Whole Foods Market.”

102. WFMI causes WFM Distribution to hold itself out as performing operations on behalf of Whole Foods retailers located in the State of California. *See* Exhibit 4.

103. WFMI has continuous and systematic general business contacts in California that approximate physical presence in California.

104. WFMI has continuous and systematic general business contacts with WFM Services, WFM California, and WFM Distribution that approximate physical presence in California.

105. WFMI continuously and systematically performs affirmative conduct which allows or promotes the transaction of its business within the State of California.

106. WFM Services acts as an agent of WFMI in developing, marketing, and advertising WFMI's private label products.

107. WFM Distribution acts as an agent of WFMI in distributing WFMI's private label products.

108. Other subsidiaries of WFMI (including WFM California) act as agents in selling WFMI's private label products in the state of California.

109. As such, WFMI purposefully avails itself of California by directing its agents (including WFM Services, WFM California, and WFM Distribution) to take action there, which WFMI specifies.

110. WFMI instructs WFM Services to develop WFMI private label products for sale in California. Exercising its control over WFM Services, WFMI additionally causes WFMI

6, https://www.sec.gov/Archives/edgar/data/865436/000104746916015367/a2229372zex-3_40.htm.

Services to develop WFMI private label products for sale in California through a company based in the state of California, Whole Foods Market Brand 365, LLC (“WFM Brand 365”).

111. WFMI instructs WFMI Services, WFM Brand 365, and WFM Distribution to not sell WFMI’s private label products to any retailer other than those that WFMI identifies.

112. WFMI instructs its other agents (including WFM California and WFM Distribution) to sell in the State of California the products it instructed and caused WFMI Services to develop.

113. But for WFMI's contacts with California, Plaintiff's claims would not have arisen.

114. WFM Services, WFM California, and WFM Distribution do not perform any services for any other company but WFMI.

115. WFM Services was established for, and is engaged in, activities that WFMI would have to undertake itself but for the existence of the WFM Services.

116. WFM Services performs exclusive private label product development services for the parent corporation, WFMI, that are sufficiently important to WFMI that if WFMI did not have WFM Services to perform them, WFMI would undertake to perform substantially similar services.

117. WFM Services performs meaningful activity in California on behalf of WFMI such that its presence substitutes for the presence of WFMI.

118. WFMI controls WFM Services’ day-to-day activities.

119. WFMI uses WFM Services as a marketing conduit for its exclusive private label goods, and attempts to shield itself from liability based on WFM Services activity.

120. WFMI dictates every facet of WFM Services’ business -- from broad policy decisions to routine matters of day-to-day operation.

121. WFM California was established for, and is engaged in, activities that WFMI would have to undertake itself but for the existence of the WFM California.

122. WFM California performs retail operations in California exclusively for the parent corporation, WFMI, that are sufficiently important to WFMI that if WFMI did not have WFM California to perform them, WFMI would undertake to perform substantially similar services.

1 123. WFM California performs meaningful activity in California on behalf of WFMI
2 such that its presence substitutes for the presence of WFMI.

3 124. WFMI controls WFM California's day-to-day activities.

4 125. WFMI uses WFM California as a distribution and retail conduit for its exclusive
5 private label goods and attempts to shield itself from liability based on WFM California's activity.

6 126. WFMI dictates every facet of WFM California's business -- from broad policy
7 decisions to routine matters of day-to-day operation.

8 127. WFM Distribution was established for, and is engaged in, activities that WFMI
9 would have to undertake itself but for the existence of the WFM Distribution.

10 128. WFM Distribution performs distribution operations exclusively for the parent
11 corporation, WFMI, that are sufficiently important to WFMI that if WFMI did not have WFM
12 Distribution to perform them, WFMI would undertake to perform substantially similar services.

13 129. WFM Distribution performs meaningful activity in California on behalf of WFMI
14 such that its presence substitutes for the presence of WFMI.

15 130. WFMI controls WFM Distribution's day-to-day activities.

16 131. WFMI uses WFM Distribution as a distribution and sale conduit for its exclusive
17 private label goods and attempts to shield itself from liability based on WFM Distribution's
18 activity.

19 132. WFMI dictates every facet of WFM Distribution's business -- from broad policy
20 decisions to routine matters of day-to-day operation.

21 133. Whether WFM Services, WFM California, and WFM Distribution are adequately
22 capitalized is not known to Plaintiff. Jurisdictional discovery is therefore appropriate.

23 134. Whether WFMI sends technical personnel to its subsidiaries, including WFM
24 Services and WFM California, to assist with operations is not known to Plaintiff. Jurisdictional
25 discovery is therefore appropriate.

26 135. Whether WFMI imposes an integrated sales system on its Whole Foods retailers,
27 including WFM California, is not known to Plaintiff. Jurisdictional discovery is therefore

appropriate.

D. Subject Matter Jurisdiction

136. This Court has subject matter jurisdiction pursuant to the Class Action Fairness Act, 28 U.S.C. § 1332(d) (“CAFA”). Jurisdiction under CAFA is met because the proposed number of putative class members exceeds 100, at least one plaintiff and one defendant are citizens of different states, and the amount in controversy, including, but not limited to the aggregate amount of relief sought by absent class members, exclusive of interest and costs, exceeds \$5 million.

137. Venue is proper in this District under 28 U.S.C. § 1391(a). Substantial acts in furtherance of the alleged improper conduct, including the dissemination of false, misleading and deceptive information regarding the nature, quality, and/or ingredients of the products, occurred within this District.

138. No other forum would be more convenient for the parties and witnesses to litigate this action.

IV. FACTUAL ALLEGATIONS

A. Consumers Actively Seek Hypoallergenic Body Care Products

139. According to the Centers for Disease Control and Prevention (“CDC”), 8.8 million children (12% of U.S. children) reported skin allergies in 2012. Skin allergies are even more prevalent among young children; CDC reports that 14.2% of children between the ages of 0 and 4 suffered a skin allergy in 2012.

140. These numbers are likely to underreport the prevalence of allergic contact dermatitis; recent studies show that somewhere between 14-70% of children suffer from skin allergies, based on positive patch skin tests.

141. Skin allergies are similarly prevalent among adults.

142. When skin is exposed to a sufficient amount of a chemical allergen, the skin is “sensitized.” Upon re-exposure to the allergen, the skin initiates an inflammatory cascade, causing skin changes associated with allergic contact dermatitis. These include redness, oedema (fluid

retention), scaling, fissures (cracking), vesicles (fluid-filled sacs), bullae (bubble-like cavity), and eventually oozing.

143. Contact sensitization and related skin allergies can severely affect a person's quality of life, depending on the severity and the site of skin sensitization. People suffering from noticeable skin allergies will try to hide the symptoms under clothing if possible, and if not, will avoid public spaces entirely. In either case, skin allergies can dramatically affect a person's confidence and engagement in life.

144. It is difficult to identify the substance causing an allergic response. Allergic contact dermatitis develops several days after exposure to a skin allergen. Some substances do not cause symptoms until a week after exposure.

145. Even more, once an individual is sensitized to an allergen, future contact with the allergen can trigger a response in the *original* site of sensitization. For example, if someone had an allergic response to a product used on the face, and later used a different product containing the same allergen on the legs, the allergic response will occur again on the *face* – even if the face was never exposed to the second product.

146. When a consumer cannot identify the material to which they are allergic, allergic contact dermatitis will persist, and, it is believed, will take longer to resolve even after the cause is identified.

147. Thus, consumers will actively seek out hypoallergenic products – to avoid a skin allergy from occurring at all and/or to prevent a known skin allergy from repeating the inflammatory cascade.

B. Definition of Hypoallergenic

148. The scientific and regulatory definition of a skin sensitizer is a substance that causes sensitization by skin contact in a substantial number of persons based on human evidence or appropriate animal testing.

149. If a skin sensitizer makes up 0.1% or more of a product, or if the product contains a sensitizer that may elicit an allergic response at concentrations smaller than 0.1% in individuals

1 who are already sensitized to the chemical, the *entire* product mixture is classified as a skin
2 sensitizer, *i.e.*, the product causes sensitization by skin contact in a substantial number of persons
3 based on human evidence or appropriate animal testing.

4 150. A product that is a skin sensitizer is not hypoallergenic.

5 151. Consumers believe and expect that a product that is labeled as hypoallergenic does
6 not contain skin sensitizers at a concentration that could elicit an allergic response in sensitized
7 individuals.

8 152. Once skin is sensitized, even a *minute* amount of the chemical allergen is enough
9 to cause a full-blown allergic response. Thus, consumers seeking hypoallergenic products also
10 commonly expect that the product does not contain *any* skin sensitizers.

11 153. All WF's products contain substances classified by reputable authorities as skin
12 sensitizers. *See infra* at ¶¶ 175-203 (identifying skin sensitizers) and Exhibit 1 (showing which
13 products contain these skin sensitizers).

14 154. All WF's products also contain skin sensitizers that are either present in WF's
15 products at concentrations larger than 0.1%, or that may elicit an allergic response at
16 concentrations smaller than 0.1% in sensitized individuals.

17 155. Thus, WF's products are not hypoallergenic.

18 156. Thus, WF's on-the-label promise that its products are "hypoallergenic" is false.

19 157. Consumers also believe and expect that a hypoallergenic product will not cause
20 skin irritation, skin corrosion, or eye damage when used as directed.

21 158. Consumers also believe and expect that a product that is labeled as hypoallergenic
22 does not contain a significant amount of ingredients known to produce skin irritation, skin
23 corrosion, and/or eye damage.

24 159. WF's products contain significant amounts of ingredients classified by reputable
25 authorities as causing skin irritation, skin corrosion, and/or eye damage. *See infra* at ¶¶ 175-203
26 and Exhibit 1 (showing which products contain these ingredients).

27 160. Thus, WF's on-the-label promise that its products are "hypoallergenic" is *also*

misleading.

161. WF knows how consumers understand “hypoallergenic,” and encourages this understanding.

162. Because even a *minute* amount of a chemical allergen is enough to cause a full-blown allergic response, consumers reasonably expect and believe that when a product is labeled as “hypoallergenic,” this representation is true not just for the final formulation, but to every ingredient in the product.

163. WF knows and encourages this understanding.

164. WF knows that consumers rely upon it to not only test the final product formulation for basic safety, but to select only those ingredients that it considers to be safe.

165. Advertising itself as “America’s Healthiest Grocery Store,” *see* Exhibit 18 (Google ad); 2016 Annual Report at 1, Whole Foods promises its customers that it “maintain[s] the strictest quality standards in the industry.” Exhibit 19 (“Company Info”).

166. Listing its “quality standards,” Whole Foods identifies as its top standard: “We carefully evaluate each and every product we sell.” Exhibit 20 (“Quality Standards”).

167. WF stresses not only product safety, but *ingredient* safety. As WF explains:

OUR BODY CARE QUALITY STANDARDS

We carry the finest, high-quality beauty, hair and body care products available because we believe the quality of the items and ingredients you put on your body is as important as the foods and nutritional supplements you put in your body. We evaluate the quality of personal care products in terms of ingredients, experience, and efficacy.

Exhibit 21 (“Body Care Quality Standards”).

168. However, many ingredients in WF’s products have not been adequately studied for safety. Moreover, very few have been assessed for their sensitization potential. *See* ¶¶ 175-203, *infra*.

C. WF’s False Representations

169. On the products’ labels, and again on its retail website, WF represents that certain of its products are “hypoallergenic.” These products, (collectively, the “Falsely Labeled Products”)

are all falsely labeled, as all of these products contain skin sensitizers, skin irritants, eye irritants, and other deleterious compounds.

170. These products are:

365 Baby Foaming Wash
 365 Baby Lotion
 365 Baby Shampoo
 365 Bubble Bath
 365 Gentle Skin Cleanser
 365 Kids' Foaming Wash
 365 Maximum Moisture Body Lotion
 365 Moisturizing Lotion
 Whole Foods Market Baby Laundry Detergent
 Whole Foods Market Organic Laundry Detergent
 Wild Kratts Bubble Bath
 Wild Kratts Kids Foaming Body Wash

171. The labels of these products are attached as Exhibit 1.

172. Further encouraging consumers' reliance on WF's "hypoallergenic" promise, WF labels only *some* products as hypoallergenic, giving consumers the (false) impression that WF carefully reviewed each ingredient in its products to ensure that the "hypoallergenic" promise was made for only those products that truly are hypoallergenic. *See, e.g.*, Exhibit 22.

173. Yet, contrary to WF's promise, ***all*** these products in fact contain known skin sensitizers. They also ***all*** contain known skin or eye irritants, carcinogens, teratogens, mutagens, or pollutants. Finally, they ***all*** contain substances that have not been adequately assessed for safety or skin sensitization potential.

174. All WF's Falsely Labeled Products contain one or more of the following chemicals.

175. ***Acacia senegal (organic gum arabic)*** is classified as a Category 1 skin sensitizer, based on positive animal and/or human testing demonstrating that repeated skin contact can be expected to cause an allergic response in a substantial number of persons. It is known to cause local contact dermatitis. It is a Category 2 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days. It is a Category 2 eye irritant, causing adverse effects on the cornea, iris, and conjunctiva.

176. Some testing classifies *calendula officinalis flower extract* as a Category 1 skin sensitizer, based on positive animal and/or human testing demonstrating that repeated skin contact can be expected to cause an allergic response in a substantial number of persons. It is a Category 2 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days. It is a Category 2 eye irritant, causing adverse effects on the cornea, iris, and conjunctiva.

177. *Caprylyl glycol* causes Category 1 eye damage, i.e., it causes serious damage to the eye tissue or serious physical decay of vision which is not fully reversible within 21 days of application.

178. *Cetearyl alcohol* is recognized as an allergen by the American Contact Dermatitis Society. Its safety for use in bodycare products has not been adequately assessed. The limited testing done, however, shows it to be a skin irritant and eye irritant, causing skin damage in less than four hours and adverse effects on the cornea, iris, conjunctiva. It is inherently toxic to aquatic life. It is also toxic to the mucous membranes and is hazardous by definition under federal law.

179. *Cetyl alcohol* has caused urticaria-like dermatitis in humans. It is also a skin and eye irritant. It is also classified as an eye irritant, and it is inherently toxic to aquatic life with long-lasting effects.

180. While *citric acid* is a common food ingredient, skin contact is known to cause allergic reactions in humans. It has been reported to cause Category 1B skin corrosion, meaning that it irreversibly damages the skin after short exposure; in animal tests, the substance caused visible necrosis after less than 1 hour of exposure. Corrosive reactions are typified by ulcers, bleeding, bloody scabs, and, by the end of observation at 14 days, by discoloration due to blanching of the skin, complete areas of alopecia, and scars. It causes Category 1 eye damage, i.e., it causes serious damage to the eye tissue or serious physical decay of vision which is not fully reversible within 21 days of application.

181. Repeated use of *cocamidopropyl hydroxysultaine* has caused increased skin

1 irritation. In one test on human subjects, while no skin irritation was observed at the first
 2 application of a 2.5% solution of cocamidopropyl hydroxysultaine, repeated applications caused
 3 slight to moderate skin irritation in 45% of the subjects, with 5% of the subjects developing strong
 4 irritation. It causes Category 1 eye damage, *i.e.*, it causes serious damage to the eye tissue or
 5 serious physical decay of vision which is not fully reversible within 21 days of application.

6 182. ***Decyl glucoside*** has caused sensitization in human testing and is recognized as an
 7 allergen by the American Contact Dermatitis Society. It causes Category 1C skin corrosion,
 8 meaning that it irreversibly damages the skin after short exposure; in animal tests, the substance
 9 caused visible necrosis after less than 4 hours of exposure. Corrosive reactions are typified by
 10 ulcers, bleeding, bloody scabs, and, by the end of observation at 14 days, by discoloration due to
 11 blanching of the skin, complete areas of alopecia, and scars. It causes Category 1 eye damage, *i.e.*,
 12 it causes serious damage to the eye tissue or serious physical decay of vision which is not fully
 13 reversible within 21 days of application.

14 183. The sensitization potential of ***gluconolactone*** has not been assessed by any
 15 reputable authority. However, based on its chemical structure and similarity to other known skin
 16 sensitizers, it is classified as a likely skin sensitizer.

17 184. ***Glycerin (also listed as “organic glycerin”)*** is known to cause eczema in humans.
 18 Based on its chemical structure and similarity to other known skin sensitizers, it is a suspected skin
 19 sensitizer. Glycerin (also listed as “organic glycerin”) is classified as a skin and eye irritant. It is
 20 a mutagen, meaning that it is suspected of mutating human cells in a way that can be transmitted
 21 to children conceived after exposure.

22 185. ***Glyceryl stearate*** is a skin and eye irritant. In animal testing (rabbits), it caused
 23 erythema, edema, atonia, desquamation, and/or fissuring. It is also inherently toxic to aquatic life.

24 186. ***Isopropyl palmitate*** is classified as a skin and eye irritant. Moreover, it is an ester,
 25 a class of chemicals known to be environmentally toxic.

26 187. Some testing classifies ***mentha viridis (spearmint) leaf oil*** as a Category 1 skin
 27 sensitizer, based on positive animal and/or human testing demonstrating that repeated skin contact

1 can be expected to cause an allergic response in a substantial number of persons. *Mentha viridis*
2 (spearmint) leaf oil is classified as a fragrance allergen in the European Union. It is a Category 2
3 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema
4 (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin
5 inflammation lasting longer than 14 days. It is a Category 2 eye irritant, causing adverse effects
6 on the cornea, iris, and conjunctiva.

7 188. WF does not disclose the identity of the fragrances it uses, listing only the generic
8 term “*natural fragrance*” on its product label. Many synthetic fragrances are known to be human
9 sensitizers, toxins and environmental hazards, and are associated with adverse reproductive
10 effects, genetic mutations, and other ill effects. As WF itself recognizes, “[p]hthalates have been
11 linked to cancer and endocrine system disruption and are currently covered under the umbrella
12 term “fragrance” in conventional products.” Exhibit 23 (“What You Won’t Find in Our Cleaning
13 Products”).

14 189. *Olea europaea (olive) oil* is classified as a skin irritant. (Thus, masseurs are
15 discouraged from the external use of olive oil). It is also classified as an eye irritant.

16 190. The sensitization potential of *panthenol* has not been assessed by any reputable
17 authority. However, based on its chemical structure and similarity to other known skin sensitizers,
18 it is a likely skin sensitizer. In fact, it has produced allergic responses in some past testing on
19 humans. Panthenol is classified as a skin and eye irritant.

20 191. *Phenoxyethanol* is a skin and severe eye irritant. It has induced an allergic
21 response in both human and animal testing. It is recognized as an allergen by the American Contact
22 Dermatitis Society. It is toxic by all routes (inhalation, ingestion, and dermal contact). It is
23 extremely hazardous in case of eye contact and very hazardous in case of skin contact (defatting
24 the skin and causing skin inflammation characterized by itching, scaling, reddening, or,
25 occasionally, blistering). Even short exposure can cause serious temporary or residual injury. It
26 is toxic to the kidneys, the nervous system, and the liver, adversely affecting the central nervous
27 system and peripheral nervous system, causing headaches, tremors, and central nervous system

depression. It degrades into substances that are even more toxic. It is a germ cell mutagen, suspected of mutating human cells in a way that can be transmitted to children conceived after exposure. It is also a reproductive toxin, suspected of damaging fertility or the unborn child based on human or animal evidence. Phenoxyethanol is an ethylene glycol ether, which is known to cause wasting of the testicles, reproductive changes, infertility, and changes to kidney function. Phenoxyethanol is also carcinogen, meaning that it is suspected to induce cancer or increase its incidence. Case studies indicate that repeated exposure to phenoxyethanol results in acute neurotoxic effects, as well as chronic solvent-induced brain syndrome, constant irritability, impaired memory, depression, alcohol intolerance, episodes of tachycardia and dyspnea, and problems with balance and rash. Phenoxyethanol is also toxic by definition under federal law, and is regulated as a toxic compound. Its use is restricted in Europe.

192. **Polysorbate 20** is classified as a Category 1 skin sensitizer, based on multiple positive tests demonstrating that repeated skin contact can be expected to cause allergic response in a substantial number of persons. It is also a Category 2 skin and eye irritant, causing skin damage in less than four hours and adverse effects on the cornea, iris, and conjunctiva. It is made in part with ethylene oxide, resulting in 1,4 dioxane as a trace contaminant, which is classified as a possible carcinogen. It is a teratogen, meaning that it causes birth defects.

193. **Polysorbate 60** has caused urticaria (hives and swelling) on human subjects' foreheads. In animal testing, polysorbate 60 is a skin irritant.

194. The sensitization potential of **potassium sorbate** has not been assessed by any reputable authority. However, based on its chemical structure and similarity to other known skin sensitizers, it is classified as a likely skin sensitizer. Some case studies show it to cause contact urticaria. It is a Category 2 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days. Some studies show it to cause Category 1A skin corrosion, meaning that it irreversibly damages the skin after short exposure; in animal tests, the substance caused visible necrosis after less than 3 minutes of exposure. Corrosive

1 reactions are typified by ulcers, bleeding, bloody scabs, and, by the end of observation at 14 days,
2 by discoloration due to blanching of the skin, complete areas of alopecia, and scars. It is a
3 Category 2 eye irritant, causing adverse effects on the cornea, iris, and conjunctiva. It is also a
4 suspected mutagen.

5 195. Some testing classifies *sodium benzoate* as a Category 1 skin sensitizer, based on
6 positive animal and/or human testing demonstrating that repeated skin contact can be expected to
7 cause an allergic response in a substantial number of persons. It is also a skin irritant and causes
8 serious eye damage. It is a Category 2 eye irritant, causing adverse effects on the cornea, iris, and
9 conjunctiva. Some testing finds that it causes Category 1 eye damage, i.e., it causes serious
10 damage to the eye tissue or serious physical decay of vision which is not fully reversible within 21
11 days of application. It is a teratogen, meaning that it causes birth defects. Its use in personal care
12 products is limited in Europe.

13 196. *Sodium bicarbonate* is classified as a skin and eye irritant. Some tests show that it
14 causes Category 1 eye damage, i.e., it causes serious damage to the eye tissue or serious physical
15 decay of vision which is not fully reversible within 21 days of application. It is a teratogen,
16 meaning that it causes birth defects.

17 197. *Sodium carbonate* is a skin and eye irritant. It causes Category 1 eye damage, i.e.,
18 it causes serious damage to the eye tissue or serious physical decay of vision which is not fully
19 reversible within 21 days of application.

20 198. The sensitization potential of *sodium citrate* has not been assessed by any reputable
21 authority. However, based on its chemical structure and similarity to other known skin sensitizers,
22 it is classified as a suspected skin sensitizer. It is also classified as a skin and eye irritant, causing
23 significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid
24 beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days,
25 and causing adverse effects on the cornea, iris, and conjunctiva.

26 199. The sensitization potential of *sodium myristoyl sarcosinate* has not been assessed
27 by any reputable authority. However, based on its chemical structure and similarity to other known

skin sensitizers, it is classified as a suspected skin sensitizer. It is a Category 2 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days. It causes Category 1 eye damage, i.e., it causes serious damage to the eye tissue or serious physical decay of vision which is not fully reversible within 21 days of application.

200. The sensitization potential of *sodium oleate* has not been assessed by any reputable authority. However, based on its chemical structure and similarity to other known skin sensitizers, it is classified as a suspected skin sensitizer.

201. Though *xanthan gum* is safe as a food ingredient, it is not so safe for the skin. Some testing indicates that it is a skin sensitizer. It is a Category 2 skin irritant, meaning that it causes significant erythema/eschar (redness and dead tissue) or edema (abnormal accumulation of fluid beneath the skin) lasting more than three days, or skin inflammation lasting longer than 14 days. It is a Category 2 eye irritant, causing adverse effects on the cornea, iris, and conjunctiva.

202. *Cyamopsis tetragonolobus gum (organic guar gum)* is a contact sensitizer. Additionally, it is a Category 2 eye irritant, causing adverse effects on the cornea, iris, and conjunctiva.

203. *Avena sativa (oat) kernel flour, or avena sativa kernel flour* is classified as a Category 1 skin sensitizer, based on positive animal and/or human testing demonstrating that repeated skin contact can be expected to cause an allergic response in a substantial number of persons.

D. The Representations Are False, Deceptive, And Misleading

204. WF's conduct deceived and/or was likely to deceive the public. Consumers were deceived into believing that the Falsely Labeled Products were hypoallergenic, as labeled.

205. All these representations were false, as explained *supra*.

206. Consumers would not know the true nature of the ingredients merely by reading

the ingredient label. Its discovery requires investigation beyond the grocery store and knowledge of chemistry beyond that of the average reasonable consumer.

E. Location Of The Misrepresentations

207. WF made the above false, deceptive, and misleading misrepresentations and omissions on the package of the Falsely Labeled Products. *See* Exhibit 1.

208. WF repeated the above false, deceptive, and misleading misrepresentations and omissions on its online retail product page for the Falsely Labeled Products. *See* Exhibit 1.

209. The misrepresentations and omissions were uniform and have actually been communicated to Plaintiff and to each member of the Class at every point of purchase and consumption.

F. WF's Deceptive And Misleading Omissions

210. WF deceptively and misleadingly conceals other material facts about the Falsely Labeled Products, including:

- a. the true nature of the Falsely Labeled Products' ingredients;
- b. the identity of the Falsely Labeled Products' ingredients;
- c. that the Falsely Labeled Products contain sensitizers, irritants, toxins, carcinogens, pollutants, and/or otherwise hazardous substances;
- d. the concentration of the sensitizers, irritants, toxins, carcinogens, pollutants, and/or otherwise hazardous substances in the Falsely Labeled Products;
- e. that the Falsely Labeled Products are not "hypoallergenic";
- f. that the Falsely Labeled Products are not what a reasonable consumer would consider to be "hypoallergenic;"
- g. that the Falsely Labeled Products contain chemicals that a reasonable consumer would not expect in a product labeled as "hypoallergenic."

211. Plaintiff and the members of the Classes are not at fault for failing to discover WF's wrongs earlier and had no actual or presumptive knowledge of facts sufficient to put them on inquiry notice.

1 212. WF has concealed the identity of several ingredients. Discovery is therefore
2 necessary to determine their identity. These ingredients may also be sensitizers, irritants, or
3 otherwise toxic.

4 213. For example, WF adds “*fragrance*” or “*parfum*” to its products but does not
5 identify what chemical is used. Many ingredients used as fragrances are known skin sensitizers.
6 Many are also extremely toxic to a person’s skin, their overall health, and/or to the environment.

7 214. Furthermore, WF has not disclosed the concentration of each ingredient in its
8 products. Further investigation and discovery is needed so that Plaintiff can ascertain whether
9 entire products are also toxic.

10 215. WF has also concealed from consumers the nature of its products’ ingredients
11 despite consumers’ requests. The possible carcinogenic, toxic, and environmental effects of its
12 ingredients are still concealed from consumers today.

13 216. These facts are not ascertainable and are still not known to Plaintiff, the Class
14 members, and reasonable consumers. WF’s concealment tolls the applicable statute of limitations.

15 217. To this day, WF continues to conceal and suppress the existence, true identity,
16 nature, and concentration of the sensitizers, irritants, toxins, carcinogens, pollutants, and/or
17 otherwise hazardous substances in the Falsely Labeled Products.

18 218. Similarly, to this day, WF continues to conceal and suppress the fact that the Falsely
19 Labeled Products are not “hypoallergenic” as promised.

20 219. WF represents elsewhere on the product label and on its website that the products
21 are “non-toxic,” “safe,” having “only the gentlest ingredients,” and/or causing “no tears,” etc.
22 Exhibit 1. This further obscures the fact that WF’s products are not hypoallergenic.

23 220. For example, in its “Official Whole Foods Market Blog,” WF encourages
24 consumers seeking to avoid allergens in cleaning products to purchase Whole Foods Market brand
25 products, as they lack the ingredients WF identifies in its in-house list of banned “unacceptable
26 ingredients” for body care, premium body care, and household cleaners. *See, e.g.*, Exhibit 23
27 (“What You Won’t Find in our Cleaning Products”).

221. WF fails to disclose, however, that many ingredients in its products are known skin allergens, even though they are not banned by WF's list of "unacceptable ingredients."

G. WF Knew Its Representations Were False

222. WF holds itself out to the public as trusted experts in the area of hypoallergenic, safe, mild, and gentle personal care products.

223. WF knew what representations it made regarding the Falsely Labeled Products, as all representations appear on the products' packages.

224. WF also knew what ingredients were added to each product, as (presumably) all product ingredients listed on the product packages and are further disseminated on their websites.

225. WF is governed by and thus is presumed to know the federal regulations and state laws that control the labeling of the Falsely Labeled Products, and thus is aware that many of the ingredients have been federally declared to be chemical compounds that require inventory reporting under the Toxic Substance Control Act, are hazardous or toxic compounds that require special disclosures on safety data sheets, or are carcinogens or reproductive toxins that require product label warnings under state law.

226. WF thus knew all the facts demonstrating that its Falsely Labeled Products contain sensitizers, irritants, and otherwise toxic ingredients, and that these products were therefore falsely labeled.

H. WF Intended Consumers To Rely

227. As WF knows, consumers prefer hypoallergenic products. As WF knows, consumers will pay a premium for hypoallergenic products or would not purchase these products at all unless they were hypoallergenic, as advertised.

228. WF encourages consumers' preference for hypoallergenic products – specifically for WF's products – explaining to consumers that "we believe the quality of the items and ingredients you put on your body is as important as the foods and nutritional supplements you put in your body." Exhibit 21 ("Body Care Quality Standards").

229. WF's misleading affirmative statements (*e.g.*, that the products were mild, gentle,

safe, caused “no more tears,” or were environmentally safe) further obscured what WF failed to disclose. Thus, reliance upon WF’s misleading and deceptive representations and omissions may be presumed.

230. WF made the false, deceptive, and misleading representations and omissions, intending Plaintiff and Class members to rely upon these representations and omissions in purchasing and using one or more Falsely Labeled Products.

231. In making the false, misleading, and deceptive representations and omissions at issue, WF knew and intended that consumers would purchase the WF products when consumers would otherwise purchase a competing product or employ an alternate regimen (such as using an oil for moisturizing).

232. In making the false, misleading, and deceptive representations and omissions at issue, WF also knew and intended that consumers would pay a premium for hypoallergenic products, furthering WF’s private interest of increasing sales of its products and decreasing the sales of products marketed by its competitors.

I. Consumers Reasonably Relied

233. Consumers frequently rely on ingredient representations and information in making purchase decisions, especially in purchasing personal care products.

234. When Plaintiff and the Class members purchased the Falsely Labeled Products, Plaintiff and the Class members saw the false, misleading, and deceptive representations detailed above, and did not receive disclosure of the facts concealed, as detailed above.

235. These misrepresentations were uniform and were communicated to Plaintiff and every other member of the Class at every point of purchase and consumption.

236. Plaintiff and the Class members were among the intended recipients of WF’s deceptive representations and omissions.

237. Plaintiff and the Class members reasonably relied to their detriment on WF’s misleading representations and omissions.

238. WF’s false, misleading, and deceptive misrepresentations and omissions deceived

and misled, and are likely to continue to deceive and mislead, Plaintiff, the Class members, reasonable consumers, and the general public.

239. WF's misleading affirmative statements further obscured what it failed to disclose. Thus, reliance upon WF's misleading and deceptive representations and omissions may be presumed.

240. WF made the deceptive representations and omissions with the intent to induce Plaintiff and the Class members to purchase the Falsely Labeled Products. Plaintiff's and the Class members' reliance upon such representations and omissions may be presumed.

241. WF's deceptive representations and omissions are material in that a reasonable person would attach importance to such information and would be induced to act upon such information in making purchase decisions. Thus, Plaintiff's and the Class members' reliance upon such representations and omissions may be presumed as a matter of law. The materiality of those representations and omissions also establishes causation between WF's conduct and the injuries sustained by Plaintiff and the Class members.

J. WF's Wrongful Conduct Caused Plaintiff's Injury

242. As an immediate, direct, and proximate result of WF's false, misleading, and deceptive representations and omissions, WF injured Plaintiff and the Class members in that they:

- a. paid a sum of money for a product that was not as represented;
- b. paid a premium price for a product that was not as represented;
- c. were deprived the benefit of the bargain because the Falsely Labeled Products they purchased were different from what WF warranted;
- d. were deprived the benefit of the bargain because the Falsely Labeled Products they purchased had less value than what was represented;
- e. did not receive a product that measured up to their expectations as created by WF;
- f. used (or caused their children to use) a substance that Plaintiff and the members of the Class did not expect or consent to;

g. used (or caused their children to use) a product that was not hypoallergenic;

h. without their knowing consent, used (or caused their children to use) a substance that is generally harmful to their health or their children's health;

i. without their knowing consent, used (or caused their children to use) a substance that is a skin sensitizer, irritant, or a known or suspected toxin, carcinogen, mutagen, teratogen, environmental pollutant, or otherwise is harmful to the environment and/or their health.

243. Had WF not made the false, misleading, and deceptive representations and omissions, Plaintiff and the Class members would not have been injured as listed above. Accordingly, Plaintiff and the Class members have suffered injury in fact as a result of WF's wrongful conduct.

244. Plaintiff and the Class members all paid money for the Falsely Labeled Products but did not obtain the full value of the advertised products due to WF's misrepresentations and omissions. Plaintiff and the Class members purchased, purchased more of, or paid more for, the Falsely Labeled Products than they would have had they known the truth about the Falsely Labeled Products. Accordingly, Plaintiff and the Class members have suffered injury in fact and lost money or property as a result of WF's wrongful conduct.

K. WF Benefitted From Its Misleading And Deceptive Representations And Omissions

245. As the intended, direct, and proximate result of WF's false, misleading, and deceptive representations and omissions, WF has been unjustly enriched through more sales of Falsely Labeled Products and higher profits at the expense of Plaintiff and the Class members. As a direct and proximate result of its deception, WF also unfairly obtained other benefits, including the higher value associated with a "hypoallergenic" brand and the resulting higher stock value, redirecting sales to it and away from its competitors, and increased sales of its other products.

V. CLASS ALLEGATIONS

246. Plaintiff Kellman brings this action pursuant to Rule 23 of the Federal Rules of Civil Procedure on behalf of herself and all other similarly situated United States residents who purchased the Falsely Labeled Products (as defined herein) (the "Nationwide Class").

1 247. Plaintiff Kellman also brings this action on behalf of herself and all other similarly
2 situated California residents who purchased the Falsely Labeled Products (as defined herein) (the
3 “California Class”).

4 248. Excluded from the Class are the judge(s) assigned to this case and their family
5 members; officers and directors of WF; members of the immediate families of the officers and
6 directors of WF; WF’s legal representatives, heirs, successors, or assigns; and, any entity in which
7 they have or have had a controlling interest.

8 249. Plaintiff brings each Class pursuant to Federal Rules of Civil Procedure 23(a),
9 23(b)(1), 23(b)(2), and 23(b)(3).

10 250. At this time, Plaintiff does not know the exact number of the Class members; given
11 the nature of the claims and the number of sales that WF has made of the Products, Plaintiff
12 believes that members of each Class are so numerous that joinder of all members is impracticable.

13 251. There is a well-defined community of interest in the questions of law and fact
14 involved in this case. Questions of law and fact common to the members of the Class that
15 predominate over questions that may affect individual Class members include:

16 a. whether WF misrepresented and/or failed to disclose material facts
17 concerning the Falsely Labeled Products;

18 b. whether WF’s conduct was unfair and/or deceptive; and

19 c. whether WF breached an express warranty created through the labeling and
20 marketing of its Falsely Labeled Products.

21 252. Plaintiff’s claims are typical of those of the Class because Plaintiff, like all
22 members of the Class, purchased one or more of WF’s Falsely Labeled Products at a premium
23 price, relying on WF’s false and misleading representations, and Plaintiff sustained damages from
24 WF’s wrongful conduct.

25 253. Plaintiff will fairly and adequately protect the interests of the Class because
26 Plaintiff is similarly situated with, and have suffered similar injuries as, the members of the Class
27 they seek to represent. Plaintiff feels that she has been deceived, wishes to obtain redress of the

wrong, and wants WF to be stopped from perpetrating similar wrongs on others. Plaintiff is an adequate representative of the Class because her interests do not conflict with the interests of the Class members she seeks to represent, and she has retained counsel competent and experienced in conducting complex class action litigation, who were the first to publicly uncover the true scope and extent of WF's wrongs. Plaintiff has no interests adverse to those of the Class members and will vigorously prosecute this litigation.

254. A class action is superior to other available methods for the fair and efficient adjudication of this controversy. Specifically, no Class member has a substantial interest in individually controlling the prosecution of a separate action. The damages suffered by each individual Class member likely will be relatively small, especially given the burden and expense of individual prosecution of the complex litigation necessitated by WF's conduct. Thus, it would be virtually impossible for the Class members individually to redress effectively the wrongs done to them.

255. The prerequisites to maintaining a class action for injunctive or equitable relief are met as WF has acted or refused to act on grounds generally applicable to the Class, thereby making appropriate final injunctive or equitable relief with respect to the Class as a whole.

256. Upon information and belief, there are no pending lawsuits concerning the products at issue in this case. Concentration of the litigation concerning this matter in this Court is desirable, and the difficulties likely to be encountered in the management of a class action are not great. The resolution of the claims of all Class members in a single forum, and in a single proceeding, would be a fair and efficient means of resolving the issues raised in this litigation.

257. The prosecution of separate actions by Class members would create a risk of establishing inconsistent rulings and/or incompatible standards of conduct for WF.

258. WF's conduct is generally applicable to the Class as a whole and Plaintiff seeks, *inter alia*, equitable remedies with respect to the Class as a whole. As such, WF's systematic policies and practices make declaratory relief with respect to the Class as a whole appropriate.

259. The Class is specifically identifiable to facilitate provision of adequate notice and

there will be no significant problems managing this case as a class action. Notice to the Class can be made through various means, such as in-store leaflets, website notices, Facebook notices, notices on the labels of the packages, and/or direct notice to those consumers for which WF knows the e-mail or physical mailing address.

VI. CAUSES OF ACTION

260. The allegations in each Cause of Action are repeated and realleged in every other Cause of Action as if set forth in full therein.

COUNT 1

Breach of Express Warranty

On Behalf of the Nationwide Class and, in the alternative, the California Class

261. WF provided Plaintiff and other members of the Class with written express warranties including, but not limited to, warranties that its Falsely Labeled Products were “hypoallergenic.”

262. These affirmations of fact or promises by WF relate to the goods and became part of the basis of the bargain.

263. Plaintiff and members of each Class purchased the Falsely Labeled Products, believing them to conform to the express warranties.

264. WF breached these warranties. This breach resulted in damages to Plaintiff and other members of the Class, who bought Falsely Labeled Products but did not receive the goods as warranted.

265. As a proximate result of the breach of warranties by WF, Plaintiff and the other members of the Class did not receive goods as warranted. Plaintiff and the members of the Class therefore have been injured and have suffered damages in an amount to be proven at trial. Among other things, Plaintiff and members of the Class did not receive the benefit of the bargain and have suffered other injuries as detailed above. Moreover, had Plaintiff and the Class members known the true facts, they would not have purchased the products, would have purchased fewer products,

1 or would not have been willing to pay the premium price WF charged for the products.

2 WHEREFORE, Plaintiff prays for relief as set forth below.

3 **COUNT 2**

4 **Unjust Enrichment**

5 ***On Behalf of the Nationwide Class and, in the alternative,***
6 ***the California Class***

7 266. As a result of WF's deceptive, fraudulent, and misleading labeling, advertising,
8 marketing, and sales of the Falsely Labeled Products, WF was enriched at the expense of Plaintiff
9 and the other members of the Class through the payment of the purchase price for WF's Falsely
10 Labeled Products.

11 267. Under the circumstances, it would be against equity and good conscience to permit
12 WF to retain the ill-gotten benefits that it received from Plaintiff and the other members of the
13 Class, in light of the fact that the Falsely Labeled Products purchased by Plaintiff and the other
14 members of the Class were not what WF purported them to be. Thus, it would be unjust or
15 inequitable for WF to retain the benefit without restitution to Plaintiff and the other members of
16 the Class for the monies paid to WF for such Falsely Labeled Products.

17 WHEREFORE, Plaintiff prays for relief as set forth below.

18 **COUNT 3**

19 **Unfair and Deceptive Acts and Practices**

20 ***On Behalf of the Nationwide Class and, in the alternative, the California Class***

21 268. This cause of action is brought pursuant to California's Consumers Legal Remedies
22 Act, Cal. Civ. Code §§ 1750-1785 ("CLRA"), and similar statutes.

23 269. Plaintiff and the other members of the Class are "consumers," as the term is defined
24 by California Civil Code § 1761(d) and similar statutes, because they bought the Falsely Labeled
25 Products for personal, family, or household purposes. WF is a "person" under Cal. Civ. Code
26 § 1761(c) and similar statutes.

27 270. The Falsely Labeled Products are "goods" under Cal. Civ. Code § 1761(a) and

1 similar statutes. Plaintiff, the other members of the Class, and WF have engaged in “transactions,”
2 as that term is defined by California Civil Code § 1761(e) and similar statutes. For the California
3 Class, these transactions all occurred in the State of California.

4 271. The conduct alleged in this Complaint constitutes unfair methods of competition
5 and unfair and deceptive acts and practices for the purposes of the CLRA and similar statutes, and
6 the conduct was undertaken by WF in transactions intended to result in, and which did result in,
7 the sale of goods to consumers.

8 272. WF’s false and fraudulent representations and omissions have violated and
9 continue to violate the CLRA and similar statutes because they extend to transactions that are
10 intended to result, or have resulted, in the sale of goods to consumers, including the Plaintiff and
11 the Class members.

12 273. WF’s conduct violates Cal. Civ. Code § 1770(a)(5) and similar statutes, which
13 prohibits “[r]epresenting that goods ... have ... characteristics [or] ingredients ... which they do
14 not have,” and Cal. Civ. Code § 1770(a)(7) and similar statutes, which prohibits: “[r]epresenting
15 that goods ... are of a particular standard, quality, or grade ... if they are of another,” causing
16 injury to Plaintiff and the Class.

17 274. As a result of engaging in such conduct, WF has violated California Civil Code
18 § 1770(a)(5), (a)(7), and (a)(9) and similar statutes.

19 275. Plaintiff will serve WF with notice of its CLRA violations by certified mail, return
20 receipt requested. If, after the requisite thirty days of receiving notice, WF continues to refuse to
21 correct its wrongs, Plaintiff will amend this Complaint to include a claim for punitive damages for
22 WF’s CLRA violations.

23 276. Plaintiff and the Class members seek preliminary injunctive relief, and permanent
24 injunctive relief against WF’s unfair and deceptive acts and conduct.

25 277. Pursuant to California Civil Code § 1780(a)(2) and (a)(5) and similar statutes,
26 Plaintiff seeks an order of this Court that includes, but is not limited to, an order enjoining WF
27 from continuing to engage in unlawful, unfair, or fraudulent business practices or any other act

1 prohibited by law.

2 278. Plaintiff and the other Class members may be irreparably harmed and/or denied an
3 effective and complete remedy if such an order is not granted.

4 279. The unfair and deceptive acts and practices of WF, as described above, present a
5 serious threat to Plaintiff and the other members of the Class.

6 WHEREFORE, Plaintiff prays for relief as set forth below.

7 **COUNT 4**

8 **Violations of California's False Advertising Law and Similar Statutes**

9 ***On Behalf of the Nationwide Class and, in the alternative, the California Class***

10 280. This cause of action is brought pursuant to California's False Advertising Law
11 ("FAL"), Cal. Bus. & Prof. Code § 17500 *et seq.*, and similar statutes.

12 281. Such acts of WF, as described above, and each of them constitute unlawful,
13 deceptive, and fraudulent business acts and practices.

14 282. At all material times, WF engaged in a scheme of offering the Falsely Labeled
15 Products for sale to Plaintiff and the other members of the Class by way of distributing within the
16 State of California (or the residence) to the public, *inter alia*, commercial marketing and
17 advertising, the World Wide Web (Internet), Falsely Labeled Product packaging and labeling, and
18 other promotional materials and offered for sale the Falsely Labeled Products on a nationwide
19 basis, including in California.

20 283. The misrepresentations and non-disclosures by WF of the material facts detailed
21 above constitute false and misleading advertising, and therefore constitute a violation of Cal. Bus.
22 & Prof. Code § 17500, *et seq.* and similar statutes.

23 284. Said advertisements and inducements were made within the state of residence and
24 come within the definition of advertising contained in the FAL in that such promotional materials
25 were intended as inducements to purchase WF's Falsely Labeled Products and are statements
26 disseminated by WF to Plaintiff and the other Class members. WF knew, or in the exercise of
27 reasonable care should have known, that these representations were misleading and deceptive.

285. Consumers, including Plaintiff and the other Class members, necessarily and reasonably relied on these materials concerning WF's Falsely Labeled Products. Consumers, including Plaintiff and the Class members, were among the intended targets of such representations.

286. The above acts of WF did and were likely to deceive reasonable consumers, including Plaintiff and the other members of the Class, by obfuscating the nature, quality, and/or ingredients of the Falsely Labeled Products, in violation of the "misleading" prong of the FAL and similar statutes.

287. The business practices alleged above are unlawful under the CLRA and similar statutes, which forbids misleading and deceptive advertising.

288. Plaintiff and the other members of the Class have suffered injury in fact and have lost money or property as a result of WF's violations of the FAL and similar statutes.

289. As a result, WF has been unjustly enriched at the expense of Plaintiff and the other members of the Class. Plaintiff and the Class, pursuant to California Business and Professions Code § 17535 and similar statutes, are entitled to an order of this Court enjoining such future conduct on the part of WF, and such other orders and judgments which may be necessary to disgorge WF's ill-gotten gains and restore to any person in interest any money paid for its Falsely Labeled Products as a result of the wrongful conduct of WF.

WHEREFORE, Plaintiff prays for relief as set forth below.

COUNT 5

Violation of California's Unfair Competition Law and Similar Statutes

On Behalf of the Nationwide Class and, in the alternative, the California Class

290. This cause of action is brought pursuant to California's Unfair Competition Law ("UCL"), Cal. Bus. & Prof. Code § 17200 *et seq.*, and similar statutes.

291. By committing the acts and practices alleged herein, WF has engaged in deceptive, unfair, and unlawful business practices in violation of the UCL and similar statutes.

292. Plaintiff has standing to pursue this claim as she has suffered injury in fact and has

1 lost money or property as a result of WF's actions as set forth above. Class members also have
2 suffered injury in fact and have lost money or property as a result of WF's actions as set forth
3 above.

4 293. The violation of any law constitutes an "unlawful" business practice under Cal.
5 Bus. & Prof. Code § 17200 and similar statutes.

6 294. Each of WF's false representations alleged herein violates U.S.C. § 331; Cal. Civ.
7 Code § 1709; Cal. Civ. Code § 1750 *et seq.*; and Cal. Bus. & Prof. Code § 17500 *et seq.*, and
8 similar statutes.

9 295. WF has violated the UCL's proscription against engaging in unlawful conduct as a
10 result of its violations of (i) the CLRA and similar statutes, as alleged above, and (ii) the FAL and
11 similar statutes, as alleged above.

12 296. In addition, WF has violated the UCL's proscription against engaging in unlawful
13 conduct as a result of its violations of the Sherman Law, Cal. Health & Safety Code § 109875 *et*
14 *seq.*, and similar statutes, which forbid (1) misbranding of any cosmetic, *id.* at §§ 110398 and
15 111445, and (2) manufacturing, selling, delivering, holding, or offering for sale any cosmetic that
16 is misbranded or delivering or proffering such for delivery. Cal. Health & Safety Code §§ 110390,
17 110395, 110398, 110400, 110550, 110585, 110620, 110625, 110660, 110770, 110705, 110740,
18 110760, 110765, 110770, 111445, and 111450.

19 297. The Sherman Law defines a "person" as "any individual, firm, partnership, trust,
20 corporation, limited liability company, company, estate, public or private institution, association,
21 organization, group, city, county, city and county, political subdivision of this state, other
22 governmental agency within the state, and any representative, agent, or agency of any of the
23 foregoing." Cal. Health & Safety Code § 109995. WF is a "person" within the meaning of the
24 Sherman Law.

25 298. As more fully described herein, WF's misleading marketing, advertising,
26 packaging, and labeling of the Falsely Labeled Products is likely to deceive a reasonable consumer.
27 Indeed, Plaintiff and the other Class members were unquestionably deceived regarding the

1 characteristics of WF's Falsely Labeled Products, as WF's marketing, advertising, packaging, and
2 labeling of the Falsely Labeled Products misrepresents and/or omits the true nature, quality, and/or
3 ingredients of the Falsely Labeled Products.

4 299. There is no benefit to consumers or competition from deceptively marketing and
5 labeling products. Indeed, the harm to consumers and competition is substantial. Plaintiff and the
6 other members of the Class who purchased the Falsely Labeled Products suffered a substantial
7 injury as alleged herein.

8 300. Plaintiff and the other members of the Class who purchased the Falsely Labeled
9 Products had no way of reasonably knowing that the Falsely Labeled Products they purchased
10 were not as marketed, advertised, packaged, and labeled. Thus, they could not have reasonably
11 avoided the injury each of them suffered.

12 301. WF's acts and omissions alleged above constitute unfair business practices under
13 Cal. Bus. & Prof. Code § 17200 and similar statutes because the gravity of the consequences of
14 WF's conduct as described above outweighs any justification, motive, or reason therefor,
15 particularly considering the available legal alternatives which exist in the marketplace, and such
16 conduct is immoral, unethical, unscrupulous, offends established public policy, or is substantially
17 injurious to Plaintiff and the other members of the Class. WF's false and misleading
18 representations and omissions also violate legislatively declared policy as they have violated
19 numerous state and federal laws. Moreover, the gravity of the harm to Plaintiff and Class members
20 resulting from WF's conduct outweighs WF's legitimate reasons, justifications and/or motives for
21 engaging in such deceptive acts and practices

22 302. Each false and misleading representation and omission constitutes fraudulent
23 business practices under Cal. Bus. & Prof. Code § 17200 and similar statutes because the
24 representations and omissions were false. Even if these representations were true, WF's
25 representations and deceptive concealment were nonetheless fraudulent under the statute because
26 they were misleading and were likely to and did deceive the reasonable consumer, including
27 Plaintiff and the Class members.

303. WF's violations continue to this day.

304. Pursuant to California Business and Professions Code § 17203 and similar statutes, Plaintiff and the other members of the Class seek an order of this Court that includes, but is not limited to, an order enjoining such future conduct on the part of WF and such other orders and judgments which may be necessary to disgorge WF's ill-gotten gains and to restore to any person in interest any money paid for WF's Falsely Labeled Products as a result of the wrongful conduct of WF.

WHEREFORE, Plaintiff prays for relief as set forth below.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff demands judgment on behalf of herself and the proposed Classes providing such relief as follows:

A. Certification of the Classes proposed herein under Federal Rule of Civil Procedure 23(a), (b)(1), (b)(2), and (b)(3); appointment of Plaintiff Kellman as representative of the Nationwide Class and the California Class; and, appointment of the undersigned counsel as counsel for the Classes;

B. A declaration that WF is financially responsible for notifying members of the Classes of the pendency of this suit;

C. An order requiring an accounting for, and imposition of a constructive trust upon, all monies received by WF as a result of the unfair, misleading, fraudulent, and unlawful conduct alleged herein;

D. Restitution, disgorgement, refund, and/or other monetary damages, together with costs and disbursements, including reasonable attorneys' fees pursuant to the applicable statutes and prejudgment interest at the maximum rate allowable by law;

E. Injunctive relief on behalf of the Classes, enjoining WF's unlawful and deceptive acts;

F. Statutory damages in the maximum amount provided by law;

G. Punitive damages in accordance with proof and in an amount consistent with

1 applicable precedent; and

2 H. Such further relief as this Court may deem just and proper.

3 **JURY TRIAL DEMANDED**

4 Plaintiff and the Class members hereby demand a trial by jury.
